My Portfolio: gauravdataanalyst.onrender.com

Professional Summary

Data Analyst skilled in **SQL, Python (Pandas, NumPy, Matplotlib, Seaborn), Power BI, and Advanced Excel** with hands-on project experience in **data cleaning, ETL pipelines, Exploratory Data Analysis (EDA), and interactive dashboard design**. Proficient in writing analytical SQL queries (Joins, Aggregations, Group By, Window Functions, CTEs), building Star-Schema relational data models in Power BI, and identifying meaningful trends from raw business datasets to drive data-backed decision-making.

Professional Experience

Composio Technologies Private Limited – QA / Data Validation & Engineering Sept 2025 – May 2026

- Tested and validated data flows, REST APIs, JSON payload schemas, and data pipelines to ensure cross-system data accuracy and consistency.
- Monitored automated workflow executions, performed root-cause analysis on data discrepancies, and documented findings to improve data reliability.

MuSigma Inc. – Trainee Decision Scientist / Data Analyst July 2025 – Aug 2025

- Leveraged Python (Pandas) and SQL for relational data extraction, cleaning, handling missing values, multi-table joins, and Exploratory Data Analysis (EDA).
- Built SQL analytical queries and summary tables, identifying key operational patterns to generate metric-driven insights for stakeholder reporting.

Education

Bachelor of Engineering: Chandigarh University, Gharuan	Aug 2021 – May 2025	CGPA: 7.87
Intermediate (HBSE): Barwala Public Sr. Sec. School, Hisar	Mar 2020	Percentage: 89%
Matriculation (CBSE): Army Public School, Hisar Cantt	Mar 2018	Percentage: 70.2%

Technical Skills

- **Programming & Scripting:** Python (Pandas, NumPy, Matplotlib, Seaborn), SQL, C++, Data Structures & Algorithms (DSA)
- **Data Analytics & BI:** Power BI Desktop, DAX Measures, Star Schema Data Modeling, Tableau Desktop, Advanced Excel (VLOOKUP, Pivot Tables, Power Query)
- **Databases & Querying:** PostgreSQL, SQLite, MySQL, Relational Database Design, Joins, Aggregations, Group By, Subqueries, CTEs, Window Functions
- **Analytics Concepts & Tools:** Data Cleaning, Exploratory Data Analysis (EDA), ETL Pipelines, Data Validation, Jupyter Notebook, Git, GitHub, VS Code

Projects

- **E-Commerce Sales & Customer Analytics** [GitHub Repository](#)
Tech: Python, Pandas, PostgreSQL, SQL, Power BI, DAX, Seaborn, Jupyter Notebook
 - Performed end-to-end data cleaning, EDA, and PostgreSQL schema modeling on 31,000+ transaction records to analyze product revenue and customer orders.
 - Designed an interactive Power BI dashboard with DAX measures (YTD Revenue, MoM Growth %, AOV) and analyzed discount impacts on gross margins.
- **Manufacturing Quality & Operations Analytics** [GitHub Repository](#)
Tech: Python, Pandas, PostgreSQL, SQL, Power BI, DAX, Matplotlib, Industrial IoT
 - Analyzed 8,700+ production shift records (3.2M+ manufactured units) to evaluate machine downtime causes, scrap rates, and Overall Equipment Effectiveness (OEE).
 - Used Python & SQL for Pareto downtime analysis and correlation checks between machine vibration/temperature and defect generation; built Power BI plant KPI reports.
- **Customer Churn & Retention Analytics** [GitHub Repository](#)
Tech: Python, Pandas, Scikit-Learn, PostgreSQL, SQL, Power BI, DAX
 - Analyzed 25,000 subscriber records to evaluate customer churn drivers, tenure trends, contract types, and support ticket frequency impact on retention.
 - Created monthly cohort retention matrices and built a Power BI dashboard tracking revenue-at-risk and customer segmentation KPIs.
- **Noctra Grid Relay – Spreadsheet Automation & Analytics Platform** [GitHub Repository](#)
Tech: Python, FastAPI, Pandas, PostgreSQL, React.js, JWT, REST APIs
 - Developed a spreadsheet automation web application enabling users to upload, preview, validate, clean, and process tabular datasets (Excel/CSV) with instant browser rendering.
 - Built FastAPI backend endpoints integrated with Pandas and PostgreSQL for automated data validation, transformation, and structured CSV/PDF report exports.

Certifications

- **IBM Data Science Professional Specialization** (16-Course Specialization Track) – IBM / Coursera
- **Data Visualization with Tableau Specialization** (6-Course Specialization Track) – UC Davis / Coursera
- **Python for Data Science Professional Certificate** – IBM / Coursera
- **Probability and Statistics for Data Analytics** – IIT Kharagpur (NPTEL, India)
